

PKT 2.0 SYS 1

PATIENT COMMUNICATION KIT

The tools in this kit are designed to help strengthen communication and minimize frustration associated with healthcare provider-to-patient interaction -- from clinic visits to emergency room encounters to in-patient, hospital-room discussions. Ideal for one-on-one conversations with elders. This kit features the Pocketalker[®] personal amplifier, which provides superior amplification of sounds closest to the listener while reducing background noise. Lightweight, portable and easy to clean, ideal for multiple-patient use. Ease of use means minimal staff training required. Can be used with or without hearing aids. ADA compliant.

System Includes:

- (1) PKT 2.0 Pocketalker personal amplifier
- (1) EAR 042 dual stereo isolation earphones
- (1) HED 024 stereo headphones
